Stainless Steel Wall Bracket For Fixed Cameras

Accessories

OS06BS

Heavy duty bracket with joint, made of AISI 316L thick gauge stainless steel. The rotation of the joint along the vertical and horizontal axes allows a wide range of positions. It is particularly suitable for stainless steel weatherproof and explosionproof housings. Can be combined with pole and corner mount adapters.

Features

- Suitable for fixed cameras
- 316L stainless steel construction
- Suitable for explosionproof and marine environments

Technical Specifications

Material	AISI- 316L Stainless Steel
